RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Office Action dated April 16, 2007, Applicants provisionally elect the claims of Group II (i.e., claims 14-41).

While the device of Group I and the method of Group II may be distinct as set forth by the Examiner, Applicants believe that simultaneous examination will not present an undue burden. For example, the claims of Group I are drawn to a TV receiver having AGC, and the claims of Group II are drawn to an AGC device for use in a TV. The subject matter of the two claim groups can be found in class 348. Under such circumstances, the Examiner is encouraged to maintain the claims of Groups I and II in the same application. See, MPEP § 803.

Early and favorable consideration of the application is earnestly solicited.

Respectfully submitted,

Dated: May 16, 2007
